INFORMATION DISCLOSURE STATEMENT

SIR:

Pursuant to 37 C.F.R. 1.56 AND 37 C.F.R. 1.97-1.98, Applicants submit the document cited on the attached PTO-Form 1449. The reference cited in Form 1449 is briefly discussed below. The reference noted in this Information Disclosure Statement was cited in an Canadian Office Action. Contrary to allegations made in the office action, this reference is not prior art. In this connection, the publication date of Duffy is

after applicant's priority date of November 10, 2000. Moreover, even if the effective prior art date of Duffy is Duffy's priority date of 17 March 2000, Duffy nevertheless is not prior art against applicant.

Duffy, at page 4, states --"Alternatively, said fibres may be mixed with said refractory." This disclosure can not be accorded an effective prior art date before Duffy's international filing date of March 9, 2001. In this connection, both Duffy's US priority document 09/677757 (Now US Pat. 6450243) and Duffy's GB priority document 0006581.3 are silent as to applicants claimed dry blends of refractory filler and refractory fiber. Since each of these priority documents is silent re applicant's claimed dry blends, then Duffy's aforementioned disclosure at page 4 is new matter relative to the priority documents. Accordingly, the phrase --"Alternatively, said fibres may be mixed with said refractory." -- can not be accorded an effective prior art date before Duffy's international filing date of March 9, 2001. Since Duffy's international filing date of March 9, 2001 is later than applicants priority date of November 10, 2000, Duffy's above-identified disclosure re mixtures of fibers and refractory is not prior art to applicant.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read 'J. A. Parrish', with a stylized flourish at the end.
